

DESCRIPTION:

Cananga essential oil is from the same botanical species as ylang-ylang, but is slightly heavier and less floral. The oil is widely used, and is formulated in cosmetics, perfumes and personal care products. Khush Ingredients sources this essential oil from Indonesia, where our supply partner annually declares compliance to Khush Ingredients' Sustainability and Ethical policy.

The main harvest period for Cananga is highlighted in green below. This is a natural product, distilled from the flowers of the *Cananga odorata* evergreen tree, grown in Indonesia. Available in 1kg aluminium, 5kg and 25kg HDPE containers, and 185kg steel drums
