

DESCRIPTION:

With its distinct sweet, woody odour, Himalayan Cedar has been traditionally used for incense and perfumery and often used in soap fragrances. Cedarwood deodara possesses epidermic and antiseptic properties and has a lot of similarities to its close relative, Cedarwood Atlas. Khush Ingredients sources this essential oil from India, where our exclusive supply partner annually declares compliance to Khush Ingredients' Sustainability and Ethical policy.

The harvest period for Himalayan Cedarwood is highlighted in green below. The essential oil is steam distilled from the roots and stumps of *Cedrus deodara*; the oil is then rectified using an alkali wash via scrubbing to remove the phenolic group. This product is supplied in 1kg, 5kg, 25kg and 195kg plastic drums.

CHEMISTRY:

Appearance: Viscous liquid

Odour: Woody, characteristic

Colour: Amber to brown

Specific Gravity @ 25°C: 0.900 to 0.975

Refractive Index @ 25°C: 1.490 to 1.520

Optical Rotation @ 20°C: +35° to +70°

Flash Point: 94°C

COMPONENT PROFILE:

Component	Typical (by GC)
α-Himachalene	12 to 18%
β-Himachalene	25 to 55%
γ-Himachalene	9 to 15%
α-Atlantone (E+Z)	7 to 23%
γ- Atlantone (E+Z)	2 to 12%

STANDARDS / TESTS:

ISO 16128 standard	✓
Kosher certified	✓
Pesticide test*	✓
Heavy metals test*	✓

**available upon request*
