Pramod

Managing Director

Maille

UK Commercial

Ned

Technical Manager

Meet Hursen (International Commercial), Pramod (Managing Director), Maille (UK – Commercial) and Ned (UK – Technical Manager), on both Tuesday and Wednesday for a warm welcome and product showcase!

NEWS FLASH

Khush Ingredients BV successfully passed our COSMOS audit and are working towards obtaining certification.

WE WENT TO VIVANESS!

VIVANESS Nuremberg

In February, some of our team attended the VIVANESS / BIOFACH exhibition in Nuremberg.

It was a fantastic opportunity to engage with both existing and new customers and suppliers, as well as to showcase our extensive range of globally sourced organic essential oils.

We appreciate everyone who visited our team during the exhibition!

Organic Rose Water Room Spray

Our Technical team created some amazing Organic Rose Water Linen & Room Sprays as freebies for the VIVANESS / BIOFACH exhibition.

Be on the look out for what our Technical team are cooking up to giveaway at SIMPPAR!

REACH Update:

We're pleased to announce that Lime oil (*citrus aurantifolia*) and Litsea Cubeba oil are now registered under UK REACH via DUIN (Downstream User Import Notification) for quantities ranging from 1 to 10 tonnes per annum. Additionally, we've upgraded our REACH registration for Eucalyptus Citriodora oil to cover quantities of 10-100 tonnes per annum.

If you're in need of REACH registered quantities of these oils, please contact us at: learnmore@khushingredients.net

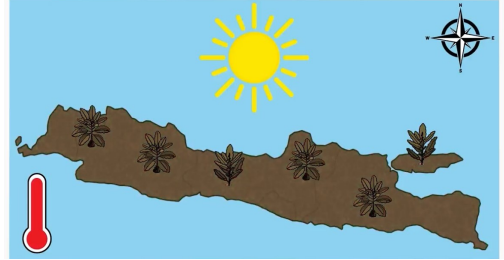

PRODUCT UPDATE

Patchouli Oil - January

The 2023 El Nino effect caused severe droughts in the key growing regions of Patchouli Oil in Eastern Indonesia.

This led to a shortage in supply as well as price volatility.

We have secured enough stock to see our customers through this period and hope to see price reductions towards the end of 2024!

PRODUCT OF THE MONTH

Organic Cassia Oil - February

Our Organic Cassia Oil is sourced from the mountainous North-West region of Vietnam.

Despite the challenges like residual pesticides, our suppliers ensure strict organic standards for sustainable farming. This product supports local livelihoods and offers a high-quality, natural flavouring substance.
